#### BLUE AND DISHEARTENED. TO EQUALIZE

And Not Without Very Good Cause.

It All Resulted From Weak Kidneys and Torpid Liver.

The Vast Importance of Those Organs if You Want to Feel Well,

If your stomach, kidneys and liver den't do their work well, you will surely suffer. Inaction, or disease of those organs, closs the whole system and makes had blood and weak nerves. The complexion soon becomes pale and sallow, and dark lines appear under the eyes.

Other symptoms are sure to follow, such as bad taste in the mouth, gas in the stomach, loss of appetite, billbusness constipation, skeplessness, headache, palpitation, nervoussess and exhaustion.

Every one of these conditions leads to serious disease if net checked. Mr. John Moore Hale is one of the oldest Locomotive Engineers in the United States. He was born in Wedurn, Mass, in 18th and is at present residing at 250 W. 7th St., St. Paul, Minn. He says:

"I was taken with La Grippe and Selatica. I had the best doctors, but without much relief. A friend of mine, who was also an engineer, recommended Dr. Greene's Nervura blood and nerve remedy, and I dropped the doctors and bought a bottle of Nervura. Before it was a little over half gone, I felt that I was on the mend, and I took three bottles and to-day I am a well man. I struck it.

"Dr. Greene's Nervura blood and nerve remedy has made my burden lighter, by building up my run-down system. The aliment of greatest hindrance to me was kidney trouble, which, as those who suffer from it know, absolutely unfits a man for business, especially if he is of a nervous temperament. Dr. Greene's Nervura has built me up so that I can safely prenounce it the superior of any proprietary medicine I over used. I resommend it to all."

This remedy is the surest cure ever known. Dr. Greene's Nervura blood and nerve remedy is the discovery of Dr. Greene, of 101 Fifth Avenue, New York City, the most successful specialist in curing nervous and chronic diseases. He can be consulted free, personally or by letter.

### CHICAGO RATES.

Western Passenger Association to Pass Upon Important Measures Affecting World's Fair Traffic.

At the meeting of the Western Passenger Association in Chicago to-day the questions of equalizing the Chicago rates to meet the St. Louis World's Pair rates f allowing stopover privileges at Kansas City and St. Joseph will come up for consideration.

It is generally understood that the representatives of the St. Louis lines will readily ages to an adjustment of the rate to Chicago whereby it will equalize the rate to St. Louis, but that almost all are opposed to granting stopover privileges to Western citles on tickets sold to St. Louis at the time of the Fair.

St. Louis at the time of the Fair.

It is contended that if this stopover privilege is allowed that it will have the effect of nullifying all the benefits which the railroads will receive from the protection granted, them in St. Louis and Chicago from scallpers.

Passenger officials state that lines which have an expression with St. Louis have Chicago from scalpers.

Passenger officials state that lines which have no connection with St. Louis have met the propositions of the St. Louis lines for rates to the Fair in a highly commendable and generous manner, and it would not be fair to these lines to attempt to divert their traffic from Chicago where their interest lies, and for this reason it is not expected that any opposition will be shown for Chicago to have a rate equalizing the rate to St. Louis during the Fair period.

At the time of the Columbian Exposition the St. Louis lines reduced their rates to meet the reduction made by the Chicago lines.

BURLINGTON CUT-OFF.

Will Not Discontinue Service by J. M. Levi Arranges Sale Through

Way of Hannibal. Work on the Burlington cut-off between Mexico and Old Monroe is being pushed as rapidly as the weather will permit, and M. Levi, from the Kinsey Realty Comit is expected that the contractors will have completed it by April 15. To date eighteen miles of the line has been constructed from Mexico and fourteen from Old Monroe. The entire length of the cut-off is about sixty miles, but the construction work in the center will be particularly heavy. The road will be equipped with it is expected that the contractors will eighteen miles of the line has been constructed from Mexico and fourteen from Old Monroe. The entire length of the cutoff is about sixty miles, but the construction work in the center will be particularly heavy. The road will be equipped with eighty-five-pound rails, and when completed will give the Eurlington a Kansas City route of a fraction more than 26 miles to St. Louis.

It is stated that the Eurlington will continue its service by way of Hannibal as at present, but will put on trains for Kansas City-St. Louis service, which will be routed over the cut-off.

DEPOT FOR SUBURBAN SERVICE.

Terminal May Use Mullanphy Street

Station for Committees, Negotiations are in progress by which the Terminal Association may lease the Mullanphy Street Station, which it is proposed to use exclusively for suburban and commuter service during the World's Fair

period.

It is proposed that the Chicago and Alton, Big Four, C., P. & St. L., Illinois Central (race trains), and possibly the Wabash shall send all their suburban trains to and from this station, and that storage yards shall be provided by which these trains can, upon their arrival, be sidetracked until the time for them to return in the evening Ing. In this event, it is claimed, one of the most difficult problems with which the Terminal Association will have to deal will be solved, and the likelihood of a concestion at Union Station will be materially re-

S. F. PRYOR PROMOTED. Appointed Traffic Manager of Sim-

mons Hardware Company. S. F. Pryot, in charge of the rallway supply department of the Simmons Hardware Company, has been appointed traffic manager of that company, in addition manager of that company, in addition to his present position.

Mr. Pryor is a brother of E. B. Pryor, assistant to President Ramsey of the Wabash Railroad Company. He succeds to the position made vacant by the resig-nation of P. Johnston.

New Guthrie Train Service.

Guthrie, Ok., March 2-Regular train service was established over the Missouri, Kansas and Texas Railroad between Guthrie and Fallis, Ok., a distance of thirty miles, to-day. Two passenger trains will be run daily, close connections being made with through trains for St. Louis and Kansas City. The "Katy" is the fifth railroad to be built into this place within a year.

Further Rate Reduction.

Chlcago, March 2.-The Chlcago Great Western has renewed its attack on the Chicago and Northwestern by announc-ing a further cut of 2 cents a 199 pounds on the rate on grain from Missouri River points to Chicago. The new rates, which will be 4 cents on wheat and 3 cents on corn, will go in effect next Friday. The rates from Missouri River points to Chi-

BURGLAR-PROOF VAULT FOR WORLD'S FAIR BANK.

Missouri Banker Says His Invention Will Foil Attacks of Cleverest Cracksmen.

A burglar-proof subterranean vault, which, it is said, will withstand the attacks of the cleverest safe crackers, will be used by the Bankers' World's Fair National Bank. Another in the same building will be used to demonstrate to visiting bankers just what it will do. Bankers who have seen the vault in operation say it will revolutionize making safes and the methods of country banking especially. The vault is the invention of G. B. Lin-ney, a banker at Osceola, Mo., who is president of the Subterranean Vault and

ney, a banker at Osceola, Mo., who is president of the Subterranean Vault and Safe Company, organized under the laws of Arizona and capitalized at \$500,000. As soon as the organization is perfected the company will establish a factory in St. Louis, where the vaults will be manufacturers have tried without success to make a safe that would be proof against cracksmen. There is no safe, bankers say, that can withstand the attack of nitroglycerin. The principal of the subterranean vault is so simple that bankers say they wonder why it was not thought of before. The principal is to place the safe where the safe blower cannot get at it, and this is done in the subterranean vault.

Any safe can be used. The vault is of 2-inch steel, imbedded in a well of cement 2 feet thick, sunk in the earth under the bank building. The vault cover is circular, made of manganese steel and welghs 2,000 pounda. Inside the vault is a platform, our which the safe is placed, raised and lowered by a hydraulic device, which is locked by a time lock.

H. A. Foreman, president of the Fourth National Bank, says that the vault is simple and effective.

**ENJOINS POSTMASTER WYMAN.** 

Missouri Drug Company Secures Temporary Order. Judge Thayer of the United States Cir-

cuit Court of Appeals granted a temporary injunction yesterday against Frank Wyman, Postmaster of St. Louis, on the

application of the Missouri Drug Company, restraining the Postmaster and his subordinates from stamping mail directed to that firm as "fraudulent."

The order also temporarily enjoins the Postmaster from returning to the senders or to the Dead Letter Office any mail directed to this firm and summons him to appear before the Circuit Court on March 19 to show cause why a permanent injunction should not be granted.

"Work Among the Boys." James W. Mill, director of boys' work of the Y. M. C. A. in St. Louis, delivered an illustrated lecture on "Work Among the Boys" at the First Congregational
